SUMMARY

As a Senior iOS Developer with +6 years of experience in both UIKit and SwiftUI, I possess a deep understanding of the intricacies involved in developing high-quality iOS applications. As experienced iOS development, I have a proven track record of developing and deploying successful apps across various industry domains. I am proficient in Swift and have hands-on experience in using popular frameworks. My expertise includes developing user-friendly interfaces, implementing complex business logic, integrating third-party APIs, and ensuring optimal performance and reliability.

EXPERIENCE

Lead iOS Developer

05/2022 - Present

VenoCare

- Collaborating with other stakeholders such as product managers, designers, and QA engineers to ensure that all aspects of the development process are aligned and coordinated.
- Leading the development team to design, develop, test, and maintain iOS applications.
- Collaborate with cross-functional teams to define, design, and ship new features.
- Review code to ensure better code quality and best practices.
- Unit-test code for robustness, including edge cases, usability, and general reliability.
- Work with version control systems, specifically Git, to manage and track code changes.
- Utilize Azure CICD pipeline for code deployment and testing automation.

Tech: Azure ,iOS, Xcode, Swift, SwiftUI, UIKit, GitHub

Project Lead iOS Developer (Part Time)

10/2022- 06/2023

Santra

- Responsible for managing deployment and code repository.
- Meeting with the development team to discuss user interface ideas and applications.
- Reviewing application requirements and interface designs.
- Developing and implementing highly-responsive user interface components using iOS.
- Monitoring and improving application performance.
- Documenting application changes and developing updates.

Tech: iOS, Xcode, Swift, SwiftUI, UIKit, Github

Team Lead iOS Developer (Part time)

8/2023 - 12/2023

Dr. Clinica

- Developing and implementing front-end architecture to support user interface concepts.
- Mobile and web application development.
- Developing reusable libraries for application re-usage features.
- Communicating with clients and changes related to applications and features.
- Publish APIs and maintaining backend services.

Tech: iOS, Xcode, Swift, SwiftUI, UIKit, Github

Senior iOS Engineer

1/2021-05/2022

School Hack

- Design the architecture of new products/features.

- Assist in the preparation and production of releases of software components.
- Development and knowledge of most cutting edge technologies which include Swift latest version, adaptive user interface, AutoLayouts, Latest version of Xcode, Cocoa Touch frameworks, Apple Human Interface Guidelines and UI and UX design experience.
- Coach, guide and mentor mobile developers to grow into their work.
- Dealing with client's data, feeds and designs.
- Write clean, modular code so it can be easily updated in future.
- Contribute ideas for making the application(s) better and easier to use.
- On-going maintenance of existing Applications.

Tech: Xcode, Swift, UIKit, SwiftUI, bitbucket,

iOS Engineer

1/2020 - 1/2021

Taif al Emirate

- Creating and executing front-end frameworks to uphold user interface designs.
- Crafting both mobile and web applications.
- Crafting reusable modules to facilitate the reuse of application features.
- Engaging with clients to discuss application enhancements and modifications.
- Deploying APIs and managing backend services

Tech: iOS, Xcode, UIKit, Swift

Jr iOS Developer

5/2017 - 12/2019

Brainplow

- Design and build advanced applications for the iOS platform.
- Participate in the planning process for software development projects, and ensure meeting quality and deadlines on delivery.
- Investigate alternates and technologies and present them for architectural review, in order to support continuous improvement.
- Developing reusable libraries for application re-usage features.
- Communicating with clients and changes related to applications and features.

Tech: Xcode, Swift, UIKit, git
